## Canadian Community Health Survey, 2005: Cycle 3.1 Sub-sample 1: Health Utility Index (HUI), Fruit and Vegetable Consumption and Labour Force (long form) (CCHS-Cycle 3.1 2005: Sub-sample 1)

*Enquête sur la santé dans les collectivités canadiennes, 2005: Cycle 3.1 Sous-échantillon 1: L'indice de l'état de santé (HUI), Consommation de fruits et de légumes, Population active*

Overview	
Type	Canadian Community Health Survey
Identification	cchs-82M0013-E-2005-ss1
Version	Production Date: 2014-03-05 Version: 1 <a href="#">Notes</a> Updated variable documentation.
Series	<p>In 1991, the National Task Force on Health Information cited a number of issues and problems with the health information system. These problems were that: data was fragmented; data was incomplete; data could not be easily shared; data was not being analysed to the fullest extent; and the results of research were not consistently reaching Canadians<sup>1</sup>.</p> <p>In responding to these needs, the Canadian Institute for Health Information (CIHI), Statistics Canada and Health Canada joined forces to create a Health Information Roadmap.</p> <p>From this mandate, the Canadian Community Health Survey (CCHS) was conceived. The format, content and objectives of the CCHS evolved through extensive consultation with key experts, federal, provincial and community health region stakeholders to determine their data requirements<sup>2</sup>.</p> <p>The purpose of this publication, the PUMF, is to follow through on the mandate of collecting reliable, relevant information on health services, health status, and health issues important to Canadians - at the regional, provincial and national level - and disseminating this information to the public.</p> <p>1 1999. Health Information Roadmap Responding to Needs, Health Canada, Statistics Canada. p.3. 2 1999. Roadmap Initiative ... Launching the Process. Canadian Institute for Health Information / Statistics Canada. ISBN 1-895581-70-2. p.19.</p>
<p><b>Abstract</b></p> <p>The Canadian Community Health Survey (CCHS) is a cross-sectional survey that collects information related to health status, health care utilization and health determinants for the Canadian population. The CCHS operates on a two-year collection cycle. The first year of the survey cycle “.1” is a large sample, general population health survey, designed to provide reliable estimates at the health region level. The second year of the survey cycle “.2” has a smaller sample and is designed to provide provincial level results on specific focused health topics.</p> <p>This Microdata File contains data collected for CCHS Cycle 3.1 between January 2005 and December 2005. The CCHS Cycle 3.1 collects responses from persons aged 12 or older, living in private occupied dwellings in 122 health regions covering all provinces and territories. Excluded from the sampling frame are individuals living on Indian Reserves and on Crown Lands, institutional residents, full-time members of the Canadian Forces, and residents of certain remote regions. The CCHS covers approximately 98% of the Canadian population aged 12 and over.</p> <p>CCHS 3.1 Survey consists of the main survey files and 3 sub-sample files</p> <p>Sub-sample 1: Health Utility Index (HUI), Fruit and Vegetable Consumption and Labour Force (long form)</p> <p>Sub-sample 2: Measured Height and Weight</p> <p>Sub-sample 3: Access to Health Care Services, Waiting Times and Patient Satisfaction (replaces the Health Services Access Survey (HSAS))</p>	
Kind of Data	Survey
Unit of Analysis	Individual

<b>Scope &amp; Coverage</b>	
<b>Keywords</b>	Administration, Alcohol, Blood pressure check, Breast examinations, Breast self examination, Canadian Problem Gambling Index, Changes made to improve health, Childhood and adult stressors, Chronic conditions, Colorectal cancer exams, Contacts with mental health professions, Dental visits, Depression, Diabetes care, Distress, Exposure to second-hand smoke, Eye examination, Flu shots, Food choices, Food security, Fruit and vegetable consumption, General health, Health care system satisfaction, Health care utilization, Health status - SF-36, Health Utility Index (HUI), Height and weight, Home care, Illicit drugs, Income, Injuries, Insurance coverage, Labour force (long form), Labour force (short form), Mammography, Maternal experiences, Medication use, Nicotine dependence, Oral health 2, PAP smear test, Physical activities, Physical check-up, Prostate cancer screening, Restriction of activities, Satisfaction with life, Sedentary activities, Self-esteem, Sexual behaviour, Sleep, Smoking, Smoking cessation aids, Smoking - physician counselling, Smoking - stages of change, Social support - availability, Social support - utilization, Socio-demographic characteristics, Stress - coping, Stress - sources, Suicidal thoughts and attempts, Sun safety, Two-week disability, Use of protective equipment, Voluntary organizations, Work stress, Youth smoking
<b>Time Period(s)</b>	2005
<b>Countries</b>	Canada
<b>Geographic Coverage</b> Canada, Provinces, Territories, Health Regions	
<b>Universe</b> Included: Persons aged 12 years and older who are living in private dwellings in the ten provinces and three territories. Excluded: Individuals living on Indian Reserves and on Crown Lands, institutional residents, full-time members of the Canadian Forces, and residents of certain remote regions.	

<b>Producers &amp; Sponsors</b>

<b>Sampling</b>	
<b>Sampling Procedure</b> Stratified random sample	
<b>Response Rate</b> See section 9. <a href="http://odesi.scholarsportal.info/documentation/HEALTH/CCHS/2005/DOCS/guide_e.pdf">http://odesi.scholarsportal.info/documentation/HEALTH/CCHS/2005/DOCS/guide_e.pdf</a>	
<b>Weighting</b> WTSE_S1M = Weights - Sub-sample 1 Master The principle behind estimation in a probability sample such as the CCHS Cycle 3.1 is that each person in the sample "represents", besides himself or herself, several other persons not in the sample. For example, in a simple random 2% sample of the population, each person in the sample represents 50 persons in the population. In the terminology used here, it can be said that each person has a weight of 50. The weighting phase is a step that calculates, for each person, his or her associated sampling weight. This weight appears on the PUMF, and must be used to derive meaningful estimates from the survey. For example, if the number of individuals who smoke daily is to be estimated, it is done by selecting the records referring to those individuals in the sample having that characteristic and summing the weights entered on those records. Details of the method used to calculate sampling weights are presented in Section 8. <a href="http://odesi.scholarsportal.info/documentation/HEALTH/CCHS/2005/DOCS/guide_e.pdf">http://odesi.scholarsportal.info/documentation/HEALTH/CCHS/2005/DOCS/guide_e.pdf</a>	

Data Collection	
<b>Data Collection Dates</b>	start 2005-01-01 end 2005-12-31
<b>Time Period(s)</b>	start 2005-01-01 end 2005-12-31
<b>Data Collection Mode</b>	Varied

Data Processing & Appraisal	
<p><b><u>Estimates of Sampling Error</u></b></p> <p>Since it is an unavoidable fact that estimates from a sample survey are subject to sampling error, sound statistical practice calls for researchers to provide users with some indication of the magnitude of this sampling error. The basis for measuring the potential size of sampling errors is the standard deviation of the estimates derived from survey results. However, because of the large variety of estimates that can be produced from a survey, the standard deviation of an estimate is usually expressed relative to the estimate to which it pertains. This resulting measure, known as the coefficient of variation (CV) of an estimate, is obtained by dividing the standard deviation of the estimate by the estimate itself and is expressed as a percentage of the estimate.</p> <p>For example, suppose hypothetically that it is estimated that 25% of Canadians aged 12 and over are regular smokers and that this estimate is found to have a standard deviation of 0.003. Then the CV of the estimate is calculated as:</p> $(0.003/0.25) \times 100\% = 1.20\%$ <p>Statistics Canada commonly uses CV results when analyzing data and urges users producing estimates from the CCHS Cycle 3.1 data files to also do so. For details on how to determine CVs, see Section 11. For guidelines on how to interpret CV results, see the table at the end of Subsection 10.4.</p> <p><a href="http://odesi.scholarsportal.info/documentation/HEALTH/CCHS/2005/DOCS/guide_e.pdf">http://odesi.scholarsportal.info/documentation/HEALTH/CCHS/2005/DOCS/guide_e.pdf</a></p>

2	CCCE_021	Has allergies other than food allergies	discrete	numeric-1.0	32103	30	(Do you have) any other allergies?

#	Name	Label	Type	Format	Valid	Invalid	Question
3	CCCE_031	Has asthma	discrete	numeric-1.0	32115	18	(Do you have) asthma?
4	CCCE_035	Asthma - had symptoms/ attacks	discrete	numeric-1.0	2743	29390	Have you had any asthma symptoms or asthma attacks in the past 12 months?
5	CCCE_036	Asthma - took medication	discrete	numeric-1.0	2746	29387	In the past 12 months, have you taken any medicine for asthma such as inhalers, nebulizers, pills, liquids or injections?
6	CCCE_041	Has fibromyalgia	discrete	numeric-1.0	32090	43	Do you have fibromyalgia?
7	CCCE_051	Has arthritis or rheumatism	discrete	numeric-1.0	32090	43	Remember, we are interested in conditions diagnosed by a health professional. Do you have arthritis or rheumatism, excluding fibromyalgia?
8	CCCE_05A	Kind of arthritis / rheumatism	discrete	numeric-1.0	5462	26671	What kind of arthritis do you have?
9	CCCE_061	Has back problems/excl. fibro/arthritis	discrete	numeric-1.0	32100	33	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have back problems, excluding fibromyalgia and arthritis?
10	CCCE_071	Has high blood pressure	discrete	numeric-1.0	32057	76	Do you have high blood pressure?
11	CCCE_072	Ever diagnosed with high blood pressure	discrete	numeric-1.0	26389	5744	Have you ever been diagnosed with high blood pressure?
12	CCCE_073	Medication - high blood pressure	discrete	numeric-1.0	7364	24769	In the past month, have you taken any medicine for high blood pressure?
13	CCCE_074	Did something - reduce blood pressure	discrete	numeric-1.0	7358	24775	In the past month, did you do anything else, recommended by a health professional, to reduce or control your blood pressure?
14	CCCE_75A	Recommendation - eating habits	discrete	numeric-1.0	2469	29664	What did you do? - Changed diet (e.g., reduced salt intake)
15	CCCE_75B	Recommendation - exercised more	discrete	numeric-1.0	2469	29664	What did you do? - Exercised more
16	CCCE_75C	Recommendation - reduced alcohol intake	discrete	numeric-1.0	2469	29664	What did you do? - Reduced alcohol intake
17	CCCE_75D	Recommendation - other	discrete	numeric-1.0	2469	29664	What did you do? - Other
18	CCCE_081	Has migraine headaches	discrete	numeric-1.0	32108	25	Remember, we are interested in conditions diagnosed by a health professional. Do you have migraine headaches?
19	CCCE_91A	Has chronic bronchitis	discrete	numeric-1.0	32103	30	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have chronic bronchitis?
20	CCCE_91E	Has emphysema	discrete	numeric-1.0	23767	8366	(Do you have) emphysema?
21	CCCE_91F	Has COPD	discrete	numeric-1.0	23748	8385	(Do you have) chronic obstructive pulmonary disease (COPD)?
22	CCCE_101	Has diabetes	discrete	numeric-1.0	32108	25	(Do you have) diabetes?
23	CCCEG102	Diabetes - age first diagnosed - (G)	discrete	numeric-2.0	1871	30262	How old were you when this was first diagnosed?
24	CCCE_10A	Diabetes diagnosed when pregnant	discrete	numeric-1.0	311	31822	Were you pregnant when you were first diagnosed with diabetes?
25	CCCE_10B	Diabetes diagnosed - other than pregnant	discrete	numeric-1.0	46	32087	Other than during pregnancy, has a health professional ever told you that you have diabetes?

#	Name	Label	Type	Format	Valid	Invalid	Question
26	CCCE_10C	Diabetes diag. - when started w/insulin	discrete	numeric-2.0	1876	30257	When you were first diagnosed with diabetes, how long was it before you were started on insulin?
27	CCCE_105	Diabetes - currently takes insulin	discrete	numeric-1.0	1884	30249	Do you currently take insulin for your diabetes?
28	CCCE_106	Diabetes - pills to control blood sugar	discrete	numeric-1.0	1883	30250	In the past month, did you take pills to control your blood sugar?
29	CCCE_111	Has epilepsy	discrete	numeric-1.0	32116	17	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have epilepsy?
30	CCCE_121	Has heart disease	discrete	numeric-1.0	32087	46	(Do you have) heart disease?
31	CCCE_131	Has cancer	discrete	numeric-1.0	32114	19	(Do you have) cancer?
32	CCCE_31A	Ever had cancer	discrete	numeric-1.0	31613	520	Have you ever been diagnosed with cancer?
33	CCCE_141	Has stomach or intestinal ulcers	discrete	numeric-1.0	32077	56	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have intestinal or stomach ulcers?
34	CCCE_151	Suffers from the effects of a stroke	discrete	numeric-1.0	32106	27	Do you suffer from the effects of a stroke?
35	CCCE_161	Has urinary incontinence	discrete	numeric-1.0	32099	34	(Do you suffer) from urinary incontinence?
36	CCCE_171	Has bowel disorder	discrete	numeric-1.0	32100	33	Do you suffer from a bowel disorder such as Crohn's Disease, ulcerative colitis, irritable bowel syndrome or bowel incontinence?
37	CCCE_17A	Type of bowel disease	discrete	numeric-1.0	1390	30743	What kind of bowel disease do you have?
38	CCCE_191	Has cataracts	discrete	numeric-1.0	29055	3078	(Do you have) cataracts?
39	CCCE_201	Has glaucoma	discrete	numeric-1.0	29052	3081	(Do you have) glaucoma?
40	CCCE_211	Has a thyroid condition	discrete	numeric-1.0	32089	44	(Do you have) a thyroid condition?
41	CCCE_251	Has chronic fatigue syndrome	discrete	numeric-1.0	32090	43	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have chronic fatigue syndrome?
42	CCCE_261	Suffers/multiple chemical sensitivities	discrete	numeric-1.0	32086	47	Do you suffer from multiple chemical sensitivities?
43	CCCE_280	Has a mood disorder	discrete	numeric-1.0	32096	37	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have a mood disorder such as depression, bipolar disorder, mania or dysthymia?
44	CCCE_290	Has an anxiety disorder	discrete	numeric-1.0	32096	37	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have an anxiety disorder such as a phobia, obsessive-compulsive disorder or a panic disorder?
45	CCCE_331	Has a learning disability	discrete	numeric-1.0	32095	38	(Remember, we are interested in conditions diagnosed by a health professional.) Do you have a learning disability?
46	CCCEF1	Has a chronic condition - (F)	discrete	numeric-1.0	32053	80	Has a chronic condition - (F)
47	CCCEG901	Other long-term physical/mental hlth-(G)	discrete	numeric-1.0	32075	58	Do you have any other long-term physical or mental health condition
